Waterloo Township Contact Information

The Past Year at Waterloo Township

In the last year the board addressed housekeeping duties in the way of a transition, membership on the planning commission, getting the other boards in order and to address many issues including the expansion of an extraction operation, passing a Dangerous Building Ordinance to address the growing problem of vacant unsafe structures in the township and resolving citizen's complaints.

The township has received a clear audit with a surplus from the last year that added over \$60,000 to the townships fund balance and we have made many changes that protect township funds and improve internal functions of the township operations.

The Planning Commission is meeting every month to work on ordinances and the township master plan. Recently the commission has worked thru burning and wind power ordinances and other related zoning issues.

In closing, the Waterloo Township Board and its employees are committed to providing the best possible services to you. It is our hope whether you need a permit, pay your taxes or conduct other business that your experience with the township is a positive one. Our door is always open as we are your township board and we serve you. Feel free to drop us a line or email us with any suggestions, questions or just tell us how we are doing.
